VOL. XXIV

CLOVERPORT, KENTUCKY, WEDNESDAY, NOVEMBER 1, 1899.

NO. 16.

A Grand Old Man Has Passed Away.

Mr. James L. Fairleigh Dies In
Owensboro At the Age
Of 79.

WAS BORN IN MEADE COUNTY.
He Was A Life Long Republican And
Cashier of The Meade County De-
posit Bank Until Its
Liquidation.

BRANDENBURG, KY., Oct. 30th, (Special).—When Gladstone passed beyond we said, "A grand man has gone!" Just as truly and sincerely do we, that knew Mr. James L. Fairleigh, say from our hearts, "A grand old man has gone to his reward." "Well done, thou good and faithful servant, come up higher into the joys of the Lord!"

Mr. Fairleigh, aged seventy-nine years, died at noon last Thursday in Owensboro at the home of his daughter, Mrs. Chepewy Wathen, from acute pneumonia, after an illness of five days. He was born in Meade county in 1820. At one time he lived at Rumsey, Ky., where he was in the sawmill business with his brother Henry. Mr. Fairleigh was for many years engaged in the dry goods business here. He was a life long Republican and served as Chief Deputy in Gen. Murray's office when he was United States Marshal and made his home in Louisville. He came back to this place and was a most efficient, reliable, cashier of the Meade County Deposit Bank from its organization to its liquidation little over a year ago. He then went to Owensboro.

Mr. Fairleigh was a devout Methodist having embraced religion early in life. He never turned aside from a Christian's path. His whole long pilgrimage was a continuous sermon. Mr. Fairleigh was one of those that really observed the "Golden Rule" in social, political and religious circles. He was firm, but conservative. He was an interested Sunday-school teacher in his younger days.

He was twice married—each wife was a Miss Murray. By his first union he leaves one daughter, Mrs. J. W. Lewis, of this place, Miss Jane Murray, whom he married fifty odd years ago, survives him and by whom he leaves three children—David and Andrew, of Louisville, and Mrs. Chepewy Wathen, of Owensboro. His sisters are Mrs. Mary Stuart, of Brooklyn, N. Y.; Mrs. Letitia Wilson, of Pinckneyville, Ill.; his brothers—Judge C. C. Fairleigh, of this place, and John S., of Indianapolis, Ind.

The remains were brought to Mr. J. W. Lewis' home on Friday, where the Rev. A. D. Litchfield, of the M. E. church, read the beautiful, touching, burial service of the church; prayer and singing followed. A very large congregation met, composed of the very old and the very young. Exquisite white roses, true emblems of his spotless life, with other lovely floral designs, were laid by loved ones upon his elegant casket. A more devoted husband and father none ever knew; affectionate brother, loyal friend. The longest procession seen here in years, followed his remains to the cemetery where the burial service was concluded with a touching petition by Bro. Litchfield and singing.

Those who attended the funeral services from a distance were—Mrs. R. L. Newson, Mr. and Mrs. J. D. Babbs, Mrs. D. R. Murray, Cloverport; Miss Addie G. Ditto, of Louisville; Mr. and Mrs. J. D. Brashears, of Owensboro; Mr. and Mrs. H. L. Bell and Miss Eva Carigan, of Guston's; Mr. and Mrs. Jesse Mallin, of Vine Grove; Mr. Ken Wathen and Miss Ellen Wathen, of Irvington; Mr. Richard Wathen, of Bardstown;—All relatives here from a distance. "Blessed are the dead who die in the Lord."

WHY I USE FERTIL-

IZER ON WHEAT.

I am frequently asked if it pays me to use fertilizer on my wheat. I answer that it does. For instance, I have two ten acre lots adjoining. They will bring from seven to nine bushels of wheat if well put in. I sow lot No. 1 without fertilizing. I put lot No. 2 in same condition, put on fifteen hundred pounds of fertilizer at a cost of \$30.00, one year's interest on the money, say \$1.25, making it cost in all \$31.25. Now I am pretty safe in saying that I will get 80 bushels from lot No. 1 and 160 bushels from lot No. 2. From first lot I sell 80 bushels at 70 cents=\$6.00. From second lot I sell 160 bushels at 70 cents=\$12.00. After paying for my fertilizer I have \$30.75 from lot No. 2 and from lot No. 1 I have \$6.00. I will be sure to get a fine stand of grain and clover on lot fertilized and almost sure to get a bad stand on lot not fertilized. If such is the case, and it has been, I am getting more money by using it, at the same time improving my farm. Fine preparation of the land and sowing a bushel and a half acre out. It is no mean task in my plan. Fallow is hard to make fine and solid enough to drill well. Keep clover and quit pasturing it but now a half acre to the acre.

L. A. FOOTE.

THE CITY ELECTION.

Judging from the number of candidates for City Council this year it would seem that the people of Breckenridge are not interested in the management of municipal affairs, and will it is that this is interest is felt, for the council to be elected will become the custodians of the city funds, including a \$4000 sinking fund, and will regulate the rate of taxes for two years to come and in that length of time will have ample time to consider budgets which will be submitted to the council. It is felt that there will be two years in which to build down the rate of taxes and build up the new healthy sinking fund and better prepare the town to meet the \$20,000 obligation we assumed when in 1889 we issued 5 cent bonds amounting to that sum which are due in 20 years and thereby secured for Cleverport the location of the L. & N. R. R. shop.

It seems to me that there has never been a time when more care should be taken in the selection of men to manage our city affairs than at the present, for we must continue to add each year a considerable sum of money to the sinking fund and at the same time avoid increasing the taxes so that a man of sound judgement should be selected, who entertain ideas of economy and not those of extravagance.

Below we give a list of gentlemen as they will appear on the ballot now being printed:

Under the head of "Citizen's Ticket" will be the names of R. N. Hudson, W. H. Owen, Jas. G. Harris, Dr. Jessie McCormick, Marion Seien and Chase E. Lightfoot.

This ticket is composed of good, substantial men and will represent the temperament people, who expect in the event of their election to have passed all ordinance placing the license tax for retailing liquor so high as to make it prohibitory.

The second ticket will be called "Pro-Government Ticket." It will contain the names of Hayes Bohler, James Mattingly and Shelly McBratton, all men whom supporters will expect them to improve the streets, open new streets, construct and operate an electric plant and water works.

The "People's Ticket" is composed of J. T. Owen, Mr. Lafferty, J. H. Moore, G. W. H. Hargrave, F. J. Johnson and O. W. H. Hannan. All good men representing the young blood. We don't know on what particular issue they will make the race.

The last ticket is the "Old Board Ticket," composed of A. L. Ouelas, S. P. Conard, Silas Lillard, E. T. Haynes, John D. Gregory and C. B. Skillman.

These gentlemen were selected in 1889 and with the exception of Hayes and Hargrave, have served during the past six years, and in justice to them it is only fair that the public be made acquainted with their record as "city daddies."

The second ticket will be called "Pro-Government Ticket." It will contain the names of Hayes Bohler, James Mattingly and Shelly McBratton, all men whom supporters will expect them to improve the streets, open new streets, construct and operate an electric plant and water works.

The "People's Ticket" is composed of Hayes Bohler, James Mattingly and Shelly McBratton, all men whom supporters will expect them to improve the streets, open new streets, construct and operate an electric plant and water works.

The "Old Board Ticket," composed of A. L. Ouelas, S. P. Conard, Silas Lillard, E. T. Haynes, John D. Gregory and C. B. Skillman.

These gentlemen were selected in 1889 and with the exception of Hayes and Hargrave, have served during the past six years, and in justice to them it is only fair that the public be made acquainted with their record as "city daddies."

When sworn in during Jan. 1894, they found the town in debt \$21,100 in shop and school house bonds; in addition to which there was a balance of \$100,000 available with which to pay off the debts, and the town had a balance of \$100,000, leaving a sum of \$30,000 to pay off the tax of 75 cents on the \$100, and city warrants worth only \$5 to \$7 cents on the dollar.

During the first year of their work they reduced the tax rate to 40 cents, paid the school house bonds amounting to \$100, with 7 per cent interest there on all of the outstanding debt, and brought the tax rate down to 30 cents.

In 1895 they created a sinking fund and have yearly added to it 20 per cent of the tax until now we have a sinking fund which will amount to \$4,000, when this year's taxes are paid. This sum has grown to this size under their management since 1885 and that too at a tax never greater than 50 cents on \$100 and less than 50 cents up to 1898 and 50 cents up to 1899. The depreciation of the property, which has fallen something like \$30,000, during the last two years.

They have been conservers and have shown a clean record and one which reflects credit on them.

The financial condition of the town was never in better condition than now and it must be kept so for in 1920 our railroad debt must be paid and unless we raise some year for it, when that point is reached we will be forced to our render a large percentage of our property in order to cancel our obligation.

Now gentlemen look well over the

list and be sure you make no error in the selection of men to represent you during the next two years for it is exceedingly important that we elect a set of good, conscientious councilmen.

CHAS. E. LIGHTFOOT.

WOMAN'S NIGHTMARE.

The Shudder of Death Realizes the Horror and Pain of Child-bearing.

There is much suffering and danger in store for the young mother, than her happy acquaintance soon gives way to a feeling of despondency in the mind of the woman she must undergo. This constant fear is upon the mind of many women that it fills them with terror and apprehension.

Now gentlemen look well over the

list and be sure you make no error in the selection of men to represent you during the next two years for it is exceedingly important that we elect a set of good, conscientious councilmen.

CHAS. E. LIGHTFOOT.

Made an impression.

Mrs. Nora Anderson, one of Irvington's most attractive young ladies, spent last week with Mrs. Ella LaNeave. While here she made many friends who regret the shortness of her visit.

Fine lumber.

William Miller, of this country, sold to George Harris 3 or 4 hundred poplar logs for \$200. He sold the oak timber of the land to the Claudonia Cooperage Co. for \$400. The fine lumber land on the lower levels of the river.

BRECKENRIDGE NEWS.

Jno. D. & V. G. Babbage, Editors and Proprietors
WEDNESDAY, NOV. 1, 1899.

OHIO VALLEY

Permanently Improved by Six
Inches of Water the
Year Around.

FROM PITTSBURG TO CAIRO.

J. D. Babbage, Esq.,
Editor THE BRECKENRIDGE NEWS,
Cloverport, Ky.

My Dear Sir:
I have much pleasure in noting in your issue of Wednesday, October 23rd, of the BRECKENRIDGE NEWS, a reference to the important meeting held in Louisville last week.

Your remarks are eminently just and to the point. Now is the time for all the towns on the Ohio river to come to the support of the Ohio Valley Improvement Association, which has demonstrated its ability to accomplish tangible results in the welfare of the river.

The work cannot, however, be easily fully pushed to conclusions without material aid, and the people of all classes who derive their prosperity from the property of the Ohio Valley owe it to themselves to do their part towards supporting this very intelligent work which Col. Van Slyck has done, and will continue to do in Washington, provided spathy of his constituents and a lack of money do not interfere.

You know the Ohio Valley Improvement Association is not conducted in the interest of any individual, clique, or locality, neither is it a source of profit to any one. It is conducted in the interest of the valley of the Ohio, whose prosperity must be enhanced if that stream is so permanently improved as to afford six inches of water from Pittsburgh to Cairo, the year around.

The idea that this could be done paled at a few years ago, but less than five years earned practical results, and, finally, neither is it a source of profit to any one. It is conducted in the interest of the valley of the Ohio, whose prosperity must be enhanced if that stream is so permanently improved as to afford six inches of water from Pittsburgh to Cairo, the year around.

I, however, do not anticipate either failure on part of the people or on part of the Association. The spirit which inspired your article seemed to pervade the entire assembly at Louisville, and it cannot fail to spread throughout the entire valley.

Please keep up the good work. Organize a club of one, two, three, four, five or ten members in your town and vicinity, who will come or send representatives to the next meeting, and who will be kept advised through your column as to the progress of our work.

I send you a copy of Col. Van Slyck's report of the work done by the last Congress, which I think you can from time to time publish brief extracts for the information of your people, and thereby promote an intelligent organized interest in the work.

Thanking you for the interest you have manifested, and in advance for the interest which you will continue to manifest, I am
Yours very truly,
E. W. PALMER, Secretary.

Death at Garfield.

The death angel visited the home of Mr. and Mrs. Thomas Gregory Oct. 1st, at Garfield and took little Howard, their baby boy.

"Twas the voice of their God;
I love thee, I love thee,
Pass under the rod,"

A FRIEND.

"Pull up!" That's the counsel very often given by a well meaning person to a friend who is running down the road of alcoholism.

"I can't,"

the man in despair reproached for the cowardice of the "I can't."

"But instead,

presence is only a time in the progress of any disease when it can't stop. It's a "gagging consumption." It's like a horse running away with us. We can't stop."

SHILO.

Horse McCoy was in Addison last Saturday.

Orville Basham went to Hardinsburg last Saturday.

Robert French shipped a lot of fine hogs to Louisville last week.

Mr. J. Howard was the guest of Miss Cora McCoy last Sunday evening.

Mr. Emmett Elder was the guest of Miss Carrie Shellman last Sunday.

Mr. and Mrs. W. H. Pemberton were in Addison shopping last Saturday.

Mr. Jessie C. Payne was the guest of Miss Blanche Basham, last Sunday.

The pleasant rains which fell last week, have refreshed the country very much.

Ralph Ammons reports excellent success in his new edition of "book agent."

Mr. and Mrs. T. A. Robinson are soon to move to their new homestead near Lodging.

Miss Carrie Shellman has returned to her home, after quite a prolonged visit in the city.

Mr. and Mrs. J. W. Ater spent last Saturday and Sunday with friends near Hardinsburg.

J. D. Stiff, of Henderson, was in the country last week visiting old friends and relatives.

We are truly glad to hear that the school at this place, in charge of Louisa Hall, is progressing so nicely.

Mr. and Mrs. J. H. Cary returned home last Monday, after a week's visit at the home of their parents near Henderson.

Ervitt W. Frymire, who is in charge of the school at Clifton, was at home last Saturday and Sunday, the guest of his aunt, Mrs. J. M. Rollins.

The Willett brothers were in our town Saturday and Sunday, having been here for several days last week.

Again we are glad to hear that the school at this place were Misses Carrie Shellman, Cors. McCoy, Pearl Pemberton, Dray Rayburn, Ada Lewis, Rosy Wheeler, Maud Rayburn, Leahh McLeay and Meers. Emmett Elder, P. L. White, L. J. Jones, L. F. Hartwell, A. R. Fisher, Lawrence Hinton and Edsel Pemberton.

The Kidney Complexion.

The pale, sallow, sunken-cheeked, disreputable-looking people you so often meet, are afflicted with "Kidney Complexion."

They may also have indigestion, or suffer from sleeplessness, rheumatism, neuralgia, brain trouble, nervous exhaustion, etc.

The cause is weak, unhealthy kidneys.

Usually the sufferer from kidney disease does not find out what the trouble is until it is almost too late, because the first symptoms are so like mild sickness that they do not think they need medicines or a doctor until they find themselves sick in bed.

Dr. Klimmer's Swamp Root will build up and strengthen their weak and diseased kidney-preserved blood, clear their complexion and soon they will enjoy better health.

One can get the regular sizes at the drug store fifty cents and one dollar, or you may first prove for yourself the wonderful virtues of this great discovery, Swamp Root, by sending your address to Dr. Klimmer & Co., Binghamton, N. Y., for a sample bottle and book that tells all about it, both sent to you absolutely free.

Remember to send a kindred mention that you read this liberal offer in the BRECKENRIDGE NEWS.

No Hubbug.

Foley's Honey and Tea does not claim to perform miracles. It does not claim to cure all cases of consumption or asthma, but it does claim to give comfort and relief in advanced stages of these diseases.

It is certainly worth trying by those afflicted or threatened with these dread diseases—A. R. Fisher, Cloverport.

E. A. Witt, Hardinsburg.

LOCAL OPTION DEFENDED.

Open Saloons Cause the Downfall of Both Old Age and Youth.

THE LESSER OF TWO EVILS.

CLOVERPORT, KY., Oct. 21-99. Enron News.—If I have misquoted your Lewisburg correspondent, I am sure it was not intentional, but if the general tenor of his item as it appeared in the News does not justify my reply I am sadly mistaken.

I am well aware of the fact that the situation of Lewisburg, and the facilities of transportation there make the shipping of whisky, beer and other intoxicants not only possible but probable. I know, however, to prevent just such a bad situation from occurring in Hardinsburg, if I did it would be too glad to mention it but does your correspondent contend that even with these obstacles in the way that the open saloon would be better? Would he like the glaring light and seductive music to lure innocent boys and girls to take a look at the show on the downed railroad car?

I never thought that the poor drunkard that carouses on public highways as dangerous to the morals of the youth of our land. Each mad drunkard seen on the street is a terrible lecture in itself and a warning to every thoughtful young man. But I do not know who takes a social glass is the dangerous class that threatens the safety of coming generations and when you shut up the saloon you close the only avenue in which he is dangerous. I have seen very few men who have acquired the awful habit of drink, ever entirely reformed, and I do not know of any instance where that we should labor—men that are yet free from the blighting influence of drink—and also to take temptation as much as possible out of the way of the poor infirmary.

The would open saloon remove Lewis' poor brother from that whisky dealer's pocket or stop the drugging of whisky that they do not want?

Or two evils give me the least antidetergent godly man and woman lift their hearts to God for the glad time when His Kingdom shall come and His Will be done on earth as it is in Heaven.

Mrs. J. H. S.

The pale, sallow, sunken-cheeked, disreputable-looking people you so often meet, are afflicted with "Kidney Complexion."

They may also have indigestion, or suffer from sleeplessness, rheumatism, neuralgia, brain trouble, nervous exhaustion, etc.

The cause is weak, unhealthy kidneys.

W.H. Elects.

Mr. Arthur Ford, managing editor of the Courier Journal, visited this city Saturday. In coming to the Hardinsburg election he said, "To well informed politicians there is not any doubt Senator Goebel being elected. Taylor's majority in Louisville will be small, if any."

His Life Was Saved.

Mr. J. E. Lillie, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, ran into Pneumonia."

My lungs became hardened. I could not eat, lost weight rapidly.

Nothing helped me. I expected to soon die of Consumption, when I heard Dr. King's New Discovery. One bottle gave great relief. I continued to use it and now feel well and strong. I can't say too much in its praise." This marvelously effective medicine is now in use in every case in the world for all throat and lung troubles. Regular 50 cents and \$1.00. Trial bottles free at Short & Hayes' Drug Store, every house guaranteed.

Majority for Taylor.

Dan Parrish, a farmer and miller from Rock Vale, was in town Monday. On account of the long drought, he was compelled to shut down his mill and will not resume operations this winter.

Mrs. Parrish says that an unusually large poll will be taken in his section and Taylor will get a fine majority.

Used By British Soldiers in Africa.

Capt. C. G. Dension is well known all over Africa as commander of the forces that captured the famous rebel Zulu.

Under date of Nov. 4, 1897, from Yrbury, Beauforton, he writes:

"Before starting on the last campaign I had been reading about Dr. Foley's Honey and Tea, and

"I was greatly interested in it, and

"I wanted to have some for myself."

"I have had some, and it is good."

JOTTINGS FROM THE FARMERS.

The American Agriculturist Gives Some Ideas That are Helpful To The Farmer

PARAGRAPHS THAT MEAN SOMETHING.

Honest, Educated Boys and Girls the Greatest Crop of all.

A WORD TO THE WISE.

POULTRY THEM BEFORE SELLING.

One of the most helpful things I ever learned in horticulture was about growing trees and all sorts of plants before setting them. The first thing every transplanted tree or plant must do before it can grow in its new location is to heal the wounds made upon its roots and start new roots through which it absorbs moisture and food from the soil. This is done more easily if the earth is pressed to them the more readily they can do this. It takes time for the particles of soil to get into close contact with the roots as it was before transplanting; no matter how well the work is done. This is where puddling comes in. The best way to do this is to sweep a little earth over it done three times.

Near where the trees or plants are heeled in, or the place where they are to be planted, dig a hole 2 ft in diameter and 1 ft deep. Fill it nearly full of water. Into this put mellow earth that is partly composed of clay, and stir it up. This is a mass of thin sticky mud. An old man noted a good deal ready for planting dip them into it bodily. If there is any delay about planting and the mud dries so that it is not sticky, puddle them again. When the moist soil comes in contact with these muddy roots it will stick to them closely. An old man who never tried this method has no knowledge of the good that follows. He has said of every plant that I set, and find that it always pays. Cabbage and sweet potato plants will start into new growth almost without wilting, no matter what the weather may be at the time.

PIGS FOR THE DAIRY FARMER.

The best and most profitable way of disposing of skim milk is to keep pigs at six weeks old, or at weaning time. For a few weeks at least after weaning, they should be fed exclusively on skim milk. Butter-milk is also good, but should not be fed undiluted, or occurs may result. With plenty of warmed milk combined with bran, shorts or other ground feed—which corn should form but a small portion, if any—pasture if convenient, and pure water at all times, pigs which have received good care through the months of their nursing, when they grow to maturity.

The practice of keeping over pigs or sows until a year old or more is almost if not quite out of date. Quick returns make the profit in raising hogs for market. It must be an exceptional case which would warrant keeping hogs longer than a year, and then only when a farmer could get a good price for them.

While our exports of products of agriculture continue to form two-thirds the total value of our manufactured products abroad, they are not increasing rapidly as desired. Experts of manufactures, on the other hand, are phenomenally heavy, and during the fiscal year '99 formed more than 28 per cent of the total, against 24 per cent in '98.

Press dispatches are authority for the statement that Secretary Wadsworth intends to make arrangements with Congress to secure the passage of a law providing that dairy products shall be examined as to quality at the principal ports of export. He believes that the increased exports of butter are made up largely of inferior grades, doing more harm than good to the permanency of the foreign trade.

John Rankin rejoices that his childhood was passed in a period of peace, and that he will be made upon the farm, looked upon as the lowest of domestic annals, doomed too soon to exist in filth and misery and receive only the slightest attention as to material comfort, yet the pig repays his owner ten fold for his keeping. While pigs are doubtless thrice blessed, they are given a short life, and drink skim milk for a time, then eat coarse feed, and live cattle continue gratifyingly large in spite of the efforts of some of the countries in northern Europe to restrict it or break it down.

SIXTY YEARS' EXPORTS OF FARM PRODUCTS.

like Burns is read with insight, it will be found that he prepares himself for his work by an education not the less effective because it was individual and unacademic. Education then is the process by which man becomes like his own nature. The one great vice which associates closely with nature is the farmer. We read the papers with eagerness as they recount the x-rays exhibited marvels of liquid air, or again at some new device to save labor but none of these can compare to the achievement of agriculture.

The discovery that the most costly element of fertilizer could be drawn from the soil by growing clover is the most valuable discovery of the 19th century. More wealth is produced than oil in the mineral stores of the earth. More happiness has been produced because it went to build up better homes and better schools. The mutual discussions have brought about better social conditions.

The greater danger of the American farmer is that he is not educated enough to help him. This farm is too slow, they say. This is mostly due to parents not keeping abreast of the times. It is not right nor fair that the farmer should give his best to enrich the trades. It is not natural that the emigrant son should become a doctor, and the remedy the through schools of the son of the farmer's son should be a failure. The farmer's son should be a good citizen and be contented with the opportunities for reading and social enjoyment that lie before him. It is conceded that right belongs to him. It is conceded that the wealth of our nation comes from the fields of the farmer, that the luxuries of the rich flow from the sweat of the farmer's sons. The farmer's son should be a good producer and the greatest crop of the world is the crop of honest, educated boys and girls.

Bull's Cough Syrup is the safest and surest cure for the most dangerous affection of the lungs, bronchitis, cough and measles, cough. Physician prescribes it, children like it and does small. Price 5c.

NORTON'S VALLEY.

The health of this vicinity is very good.

There has not been much excitement at this place over the election. All are for Taylor and his ticket.

Mr. Balltown, please collect all the news you can from Tar Fork. Some of us have an especial love for that place.

Sunday the 15th, Mr. Jerry Atkins, a prominent citizen of this vicinity, passed away. For several days he suffered horribly. He expressed his willingness to die and said to his friends that he was going to a town of his.

Tuesday night of the 17th, Rev. Brear served his last service at the Valley church in honor of the 50th birthday of Mr. Martin Norton. It was also the birthday of his son, Aron, who is a single man and does not want the ladies to know his age.

You have heard of the garden spot of the world; in my opinion, it is in Norton's Valley. It is a place of great beauty and thriving farmers. The people are of good society and their hospitality cannot be excelled. The only complaint we have is the lack of interest in educational matters. Parents, wake up and let us supply that deficiency at as early a date as possible. And above all, do that to do that in the common schools. Therefore see that your children attend regularly and give them some word of encouragement.

Chamberlain's Pain Balm cures others.

My wife has been using Chamberlain's Pain Balm for a number of years. I have a shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors, without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the greatest satisfaction. She had pain in one both, and her shoulder is almost gone.—Adolph L. Miller, Manchester, N. H. For sale by A. R. Fisher, Cloverport; R. A. Shellman, Stephensport.

A Happy Childhood.

John Rankin rejoices that his childhood was passed in a period of peace, and that he will be made upon the farm, looked upon as the lowest of domestic annals, doomed too soon to exist in filth and misery and receive only the slightest attention as to material comfort, yet the pig repays his owner ten fold for his keeping. While pigs are doubtless thrice blessed, they are given a short life, and drink skim milk for a time, then eat coarse feed, and live cattle continue gratifyingly large in spite of the efforts of some of the countries in northern Europe to restrict it or break it down.

The Days of a Thinker.

We wish to gain contentment, we might try such rules as these:

1. Allow thyself to complain of nothing, not even ouch weather.

2. Never picture thyself to thyself under any circumstances in which thou art not.

3. Never compare thine own lot with that of others.

4. Never allow thyself to dwell on that which is or that had been, or were, or might be, or will be, or will have been.

5. Never despair on the morrow. Part of sorrow often is to look forward to it. The Lord will provide.—Rev. E. B. Powers.

The Life of the Farmer.

Everyone has a prior edition of this subject by Wilson, Amy & Co., Ind.

Between the uneducated man and the artist in every department of work there must be educational progress, more or less, and the farmer must be educated. It is a good idea to buy all kinds of good books and good magazines. Good druggists sell it.

SHOES!

We have just added a new stock of MEN'S, WOMEN'S and CHILDREN'S shoes. We have bought largely and will guarantee prices and quality. Try us.

OUR LEADER FOR \$1.00 **\$2.50**, but it is of a fair quality of leather, London Toe, well sewed, and double sole.

OUR COMPETITOR AT \$1.25 Full stock, dirt excluder, with automatic buckle, pegged double sole, and for general service can't be beat at the price.

CLOTHING Men's Pants 90c. All wool Pants \$1.25. BOYS SUITS \$1.75 Made of wool cassimere. Dark gray and black striped. Well made. Hip and side pockets. A small price

but the suit will give satisfaction.

UNDERWEAR Men's gray mixed shirts 35c. Men's fleeced lined extra quality 25c. Drawers 25c.

BRECKENRIDGE NEWS.

WEDNESDAY, NOV. 1, 1899.

EIGHT PAGES.

CARDS OF THANKS were five lines charged for each card. The price per line was 5 cents. GREETINGS charged for at the rate of 5 cents per line. MONEY IN ADVANCE.

ANNOUNCEMENT.

We are authorized to announce Mr. A. Barry as the Nominee of the Democratic Party, to represent Breckinridge County, in the Lower House of the next General Assembly of Kentucky.

HOMA, the Vice President of this grand old republic of ours, is dying at his home at Paterson, N.J. The sympathy of every nation is with his sorrowing family.

Wrote all due respect to Col. David R. Murray's opinion as expressed in an interview published in the Courier-Journal and reprinted in these columns, we will say that he is away now. There is no more chance for Good or Evil in governing this country than there is for us and we are not running. This county will go Republican anywhere from 250 to 400.

Squire L.A. Fowle's article in this issue is a valuable contribution. It should be read by every farmer. It is the practical experience of a home man. What Mr. Fowle has done on his farm hundreds of other farmers in Breckinridge county can do if they will only try. We want more of just such practical letters from the

Farmer! FOWLE speaks here last Saturday night in the interest of Good. And for a special reason demagogery it stands at the top notch. It was full of abuse of everybody who opposed Goebel and dared to have an opinion of their own.

He branded them as hirelings of the L.N., the American Book Company, the money power and every other imaginary power that his sterile brain could conceive.

We don't take stock in any such swindle. It is not true, and men of intelligence who read and think for themselves know it. It is the howl of the political demagogue who goes over the country appealing to the passions and prejudices of the unthinking to catch votes

SAND CAVE FLAT.

A good rain last Saturday. Herman Lay's school is progressing nicely.

Mrs. Lon McLaughlin is slowly improving.

Willie Jarrett, of Hazel Dell, was the guest of his mother, Mrs. Carville, last week.

Mrs. S. Bain, of Pierce, was the guest of her aunt, Mrs. A. Claycomb, last Wednesday.

Astoria Dye, our genial deputy assessor, was in this community last week and was the guest of A. A. Claycomb Monday night.

"Never Alone" is a melodious song and although it is new the writer has known it for some time, and it seems like old song to us. We older ones should try to keep up with the music of the day and not condemn the new songs, for when we learn them they soon appear old to us.

Hon. George C. Taylor will speak at Sibley's on Saturday, Nov. 4. He was a Breckinridge boy and his many relatives and friends in this county will be glad of an opportunity to hear him. He spoke to a large audience at that place in '96 that assembled at the site of ground where the old school house stood in which he learned the ABC's. And he spoke of it as a very happy place. He is a good reader, and an excellent speaker.

Mr. Hardin should be honored with a monument erected in the most suitable place, and all the names of the other pioneers of Breckinridge, incurred, or at least all the heads of families that were in the fort and endured the hardships of that time, and paved the way for the civilization that they now enjoy. Let us do what we can to honor him.

It is a good day and has a enthusiastic stamp made by Hon. P. W. Hardin, a relative, and Hon. Geo. W. Jolly, a great grandson of Wm. Hardin, and Col. D. R. Murray and others. Give the people a chance to contribute by free will offering, and then scribe predicts that the people will respond with a fund almost or quite sufficient for the purpose.

Breckinridge—We believe that when we teach a child how to talk, or how to put words together to form a sentence is the time when the child begins in grammar, either bad or good just as it is taught. Grammar is the art of speaking and writing a language correctly, and to let a child arrive at the age of fifteen, or study all the other subjects before he studies grammar is like "putting the cart before the horse." It is impossible for a child to be "well versed in all other branches" before it has any knowledge of grammar; therefore the child should begin with its language lessons as soon as it begins to read. We should not come to the conclusion that the students dream are attained by the same study of grammar, but that many of us older ones were ruined for the lack of an early knowledge of that study. Many boys and girls are able to teach in our public schools at the age of fifteen or sixteen, and could lay some of us old to togies in the shade in correct writing and speaking. Butler's old grammar is a good one, and I think as bad as it is, but we know more of some of the later grammar we might like them as well, if not better than Butler's.

BRANDENBURG.

Mr. and Mrs. J. A. Armstrong were in the city last week.

Mrs. Anna Phillips was last week the guest of Miss Nettie Schene.

Mr. and Mrs. Chas. Dryer spent last Sunday with Mr. John Frakes.

If there is any better way to teach virtue than by practicing it, I do not know it.

Mr. and Mrs. Wm. Bewley and Little Henry took in the Carnival and made a

visit to relatives.

Mrs. R. Murray is looking so well.

She is a bright, pleasant woman and one who enjoys life.

Mr. S. O. Mallin has returned to Owensboro from a visit to his daughter Mary George Worland.

Miss James Fairleigh is looking well for one of her years. She stands her bewavement with lovely Christian frankness.

Wrote all due respect to Col. David R. Murray's opinion as expressed in an interview published in the Courier-Journal and reprinted in these columns, we will say that he is away now. There is no more chance for Good or Evil in governing this country than there is for us and we are not running. This county will go Republican anywhere from 250 to 400.

for the Farmer!

Many from Kentucky will attend the unveiling of the Winfield Davis monument at Richmond, Va. Let all honor be shown the occasion.

Brother Duvall commenced a series of services at Highland last Sunday. I have invitations from several friends to take down and hope to go.

G. H. Casperle has been quite under the weather for some time. He has been to Louisville for treatment and has returned much improved.

Mr. and Mrs. Frank and Ellen Matlford were guests of Mr. J. D. Hardin last week. Miss Eliza sang at the Baptist Sunday-school last Sunday morning.

The rain last Saturday prevented me from hearing the political speeches. It also kept a tremendous crowd away, but a good many were here. I understand next Monday will be a big Goebel day, a hand speaker, etc., a grand meeting.

WILLIE DYE, the girl who is the blight and curse of the town, and so I feel when I meet Mrs. J. D. Hardin, Mrs. D. W. Fairleigh, Mrs. Andrew Fairleigh, and Mrs. Chapman Wathen. All are many years younger, but so congenial that after seeing them, the past dwells afresh many days with me.

I was so delighted to meet those

same ladies, my old schoolmates of forty years ago. Mrs. Chapman Wathen of Covington, and J. D. Hardin of Owensboro. They have few lines such as temple tiles like monumental inscriptions to departed youth. Every feature is still high-bred and their hearts are warm as ever in early days.

Singleton Wilson was here to his uncle's (Mr. J. L. Fairleigh's) funeral. Singleton, too, but it has been many many years since he has been back to the old stamping ground. He is a prosperous, rising railroad official. We regret to know his mother, Mrs. Letitia Wilson, has had a fall which broke her collar bone.

Bracken Normal seems have been pleased, while the poor people have suffered. Mr. Burton should remain here a long time to enjoy all that he has done for Brandenburg. That reminds me that he will have one extra star in his diadem for stopping cigarette smoking to a great extent among his pupils. I heard them say "When I started to Mr. Burton, nearly every one of the boys from the largest families would smoke and inhale, now I cannot count six." He has done more than homes and mastermen. A teacher can do it. Mr. Hardin has as good influence and is very upright, indeed.

That editorial "A Campaign of Veneration" in Sunday's Courier-Post may be cause it is never to appear again.

It is a good article, but it is not

so good as the one written by Mr. D. W. Fairleigh.

Brandenburg Normal seems have been pleased, while the poor people have suffered.

The Society for the Prevention of Cruelty to Animals may cry out on behalf of the cat, or the mouse, or the hen, or the lamb, but the worryingly is not complete as any Christian Scientist would say. Worrying stops digestion, causes dyspepsia, retards all the normal functions of the body, wastes the forces of life, destroying the tissues without accomplishing anything.—COURT TRIBUNE.

A teacher can do it. Mr. Hardin has as good influence and is very upright, indeed.

The Society for the Prevention of

Cruelty to Animals may cry out on behalf of the cat, or the mouse, or the hen, or the lamb, but the worryingly is not complete as any Christian Scientist would say. Worrying stops digestion, causes dyspepsia, retards all the normal functions of the body, wastes the forces of life, destroying the tissues without accomplishing anything.—COURT TRIBUNE.

Bracken Normal seems have been pleased, while the poor people have suffered.

Mr. Burton should remain here a long time to enjoy all that he has done for Brandenburg. That reminds me that he will have one extra star in his diadem for stopping cigarette smoking to a great extent among his pupils. I heard them say "When I started to Mr. Burton, nearly every one of the boys from the largest families would smoke and inhale, now I cannot count six." He has done more than homes and mastermen. A teacher can do it. Mr. Hardin has as good influence and is very upright, indeed.

Former Brutality in W.W.

Before the priests solemnly devoted to the gods of war, the soldiers of the Roman legions, in sight of the sun, were sent into battle, and, if possible, no man, not even the bravest, could have been induced to go into the field.

After the battle in former times the

To those living

in malarial districts Tutt's Pills are indispensable, they keep the system in perfect order and are an absolute cure for sick headache, indigestion, malaria, torpid liver, constipation and all bilious diseases.

Tutt's Liver Pills

BRECKENRIDGE NEWS.

Jas. D. & V. G. Babbage, Editors and Proprietors

WEDNESDAY, NOV. 1, 1899.

The News in Brief.

Mrs. William Hall has returned to her home at Webster.

William Galloway is painting his residence on Main street.

Alfred Henton, of Hardinsburg, was in the city Sunday.

N. V. Mitchell, of Derby, Ind., was in the city Wednesday.

Mrs. Marion Ryan, of Louisville, is in the city visiting relatives.

Just ask Blenner, of Cloverport, if he is here.

A. L. Oates, proprietor of the Roller Mills, is repairing the building.

E. L. Oates is paying twenty seven and a half cents per bushel for corn.

Philip McCary, of Hardinsburg, was in the city Sunday, visiting relatives.

James T. Smith and Thurman Hook, of Hardinsburg, were in the city Sunday.

Joseph Culley, one of Hancock's progressive farmers, was in the city Thursday.

J. T. Patterson spent a few days last week at Troy, Ind., visiting friends and relatives.

John Allen, foreman on the Illinois Central, is here visiting his mother, Mrs. John Allen.

Mr. William Blain, of Payetteville, was in town Sunday and registered at the Mitchell house.

Mr. and Mrs. C. L. Knight, who have been spending a week in Indiana, have returned home.

S. C. Pickrell and wife who have been visiting in Louisville have returned to their home in Glendale.

Miss Katie Marks, after a pleasant visit of one week at the home of Mr. and Mrs. Joseph Szymore, has returned to her home in Glendale.

Mr. William McCarty and wife of Whiteville and William McCarty and family of Owensboro visited Mr. and Mrs. Thomas H. Bates at the Fork last week.

An electric light plant should be built in the city.

Sam Baker, of Payetteville, was in the city Tuesday.

James Mattingly, J. V. Harpole, J. M. Murphy and John Harrison were at the Tar Springs Sunday. They were taking kodak pictures of that famous resort.

Mr. and Mrs. D. C. Bentz, of Irvington, left Tuesday for Owasso, Okla. They will be absent one month, and will visit her brother, Mr. Louis Mattingly. Hon. L. F. Peake, of Shelbyville,

spoke in this city Saturday night to a large audience. He spoke in the interest of St. John's Gospel, and made an impressive speech. He held his hearers spell bound, and they went away rejoicing.

There is a man of prominence in this city and who is engaged in business, who has frequently complained of suffering with rheumatism. On visiting a city so much he had no trouble in getting a swell reception. You who have had the pleasure of attending these swell affairs well know the menu. He partook of all the side dishes, and when they adjourned said to a more intimate friend, "Well I do believe my suffering has left me entirely."

Big Revival in Progress.

The Rev. George Morris is holding a big revival at Clint Norton's, in the Norton neighborhood. The meeting has been going on now about a week, and there is a great interest manifested. People are flocking to the meeting for the word of God, and there has been a number of conversions. Rev. Morris preaches with great power, and the meeting is calculated to result in great good.

Vulgar Eruption.

Are bad, Skin Eruptions rob life of joy. Bucklin's Arctic Salve cures them, also Old, Running, and Fever Sores, Ulcers, Bells, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains, Best Pile cure on earth. Drives out Pains and Aches. Only 25 cents a box. Cure guaranteed. Sold by Short & Hayes, Drug-gists.

Practical West View Citizen Dead.

Mr. Wm. Henninger who died at his home near West View last week was a good quiet man, who had minded the community where he lived.

He was on the first day of last Circuit Court, and started home sick. He didn't get any farther than West View, where he lay ill for about three weeks and died.

A home Postman.

Sam Addison who lives about a mile and a half from Webster has a sheep dog which has been trained to be useful. Even though it is too small to pull a sled it can pull a little mail sack along around his neck. When the mail is placed in the sack he starts for home and never stops until it is safely delivered.

Another remarkable feature about the dog is that he is a bob-tailed dog that has been born from birth.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her beauty. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotched skin eruptions and a host of other skin troubles.

It is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves bright eyes, smooth, velvety skin rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at Short & Hayes' Drug Store.

Is Pleased.

LOUISVILLE, Ky., Oct. 25, 1899.—Sir, I am pleased to know that you are working in earnest to build up your section in the interest of Farmer's Institutes. I am working now from Jefferson to Kenton (19 counties). Let the good work go on and we will all pull together.

Yours truly,

R. F. DALANEY.

On a Jag.

The Louisville and Evansville Mail company has issued an order which prohibits ditching on the part of the company's employees. The order was brought about by one of the second clerks recently getting on a jag and leaving the boat after it landed at Louisville with the receipt of the cash drawer in his possession, going out in the city to have a good time.—Hancock Clarion.

Spends a Week With His Brother.

Mr. Fred Williams who resides near Leitchfield spent last week in the city visiting his brother, Russell Williams and family. He went to where the Rock crusher is now situated and was highly pleased over the workings and said his son should have one by all means.

Up-to-date Shoes.

The shoes which women are buying this fall make the corsets droop in despair. They are larger and longer, and the daintiest foot look like a deformity. Yet they are the up-to-date shoe and so of course they sell. To make a bad matter worse, the new sporting shoes call attention to their ugliness by their most startling colors. One style has black vamps and bright blue soles, another has black leather bottoms with a pale, pale, vivid red. These shoes also come in black and red leather and in pure white. The long shapeless cloaks displayed in the city stores match the shoes in homeliness and seem a revival of the garments of 40 years ago. A woman would be unattractive arrayed in one of them, and the only contrast to the trim tailor made costumes we have grown to love is painful.

Encouraged.

Jack Tindall, ex-representative of Hancock, was in the city Friday. He much encouraged over his party's prospects.

Last Without H.

SHREVEPORT, TEXAS, Oct. 23, 1899.—
—SCOTT'S EMULSION.—We received a fine order for Scott's Emulsion, for the treatment of the skin, sent us by a man in New York, who has been using it with great success. We are sending it to him at once so I hope you will send it regularly and often.

Yours respectfully,

Mrs. WILLIAM FRYE

Woman's Mission.

Successful competition in any field depends on physical health.

FAMILIAR questions about woman's future are constantly asked. Shall women vote? Shall they compete with men in every field? Whatever woman's mission may finally decide to be, the question must be done for her physical health.

Ignorance, superstition and mystery surround woman's delicate organism. Heroic efforts to endear her to man's eyes. Many women's hearts struggle with lassitude; many are violently ill without apparent cause, and few indeed are in normal health. She is a woman and might be different if women would follow Dr. Hartman's advice. Perhaps the most practical printed talk to women to be found anywhere is in Dr. Hartman's "Health and Beauty," which the Peura-nia Manufacturing Co., Columbus, O., will mail free to women only. It is certain that Dr. Hartman's Peura-nia products are soon to be known throughout the country. It treats them scientifically and cures them permanently. All druggists sell it.

"I received your book and commenced the study immediately at once," writes Mrs. H. D. Thompson, Greenup, Ky.

I feel like a new woman. When I commenced the study I was in a condition of mind which was as I would send for one of your books. May God bless you and spare you many years to relieve women who are suffering as I was."

Fifty thousand women will receive this book gratis. Dr. Hartman, president of the Peura-nia Manufacturing Co.,

will mail free to women who are suffering from any disease of the muscular membrane, or any of the peculiar ills of women, write to him and the letters will receive his personal attention. Write for special question blank for women.

Write for special question blank for women.

LOST—A FOW.

LOST—Two red and white speckled cows with a jin jack mark. She has a swallow mark on her side. Last seen near the Peura-nia Manufacturing Co., Columbus, O., on Nov. 11.

LOST—TEN DOLLARS.

LOST—Two gold bills wrapped in tissue paper either at Payne & Co.'s store or at Mrs. F. Bunker in the Babbage Building and received reward.

WANTED—SEVERAL BRIGHT AND INDOMITABLE PERSONS to represent us as agents in this and other states. We require a year's experience. Straight, bona-fide no more, no less, each having a bank account. It is mainly office work, but some traveling will be required. Send self-addressed stamped envelope. THE DOMINION CONCERN, Dept. C, Chicago.

FOR SALE—FOR CRAWFORD.

FOR SALE—FOR CRAWFORD, containing about seventeen acres. For particulars address James F. Bunker, 344 Main, Indianapolis, Ind.

A Vindictive Reptile.

This snake-like lizard is found on the lands of the Indians in South America, where the natives counteract its virus with a decoction of jungle henbane, and the basis of its greevous reputation is the fact that it does not turn the interest of the cobra or the rattlesnake, but flattens its coils and, with slightly vibrating tail, awakes

If the unsuspecting traveler should show no sign of hostile intent, he may be allowed to pass unmolested, while the lizard, in two yards of the victim's immediate path, but a closer approach is apt to be construed as a challenge, and the vivacious, suddenly rearing its ugly head, may strike him with such force that he will lift his foot and brandish his stick in a menacing manner. If he does, he is lost. The lower coils will expand, bringing the business into the air, and all the force from the tail, will snap away savagely at stumps and stones or even, like a wounded panther, at his own body.—Popular Science Monthly.

A Stinkent Reptile.

A curvy lizard which I sat in a Fourteenth street car just at the time of the day when the cars are most crowded on Thursday afternoon. A young woman sat beside me, and the mother, sat beside him. At Fifteenth street a particularly buxom woman of middle age crowded into the car. There was no seat for her, and she stood gazing at the lizard with a look of intense aversion. The lizard vented itself in words, and she expressed herself freely to the woman who stood next to her about women who let themselves acquire such hideous looks. The woman looking flushed, and then blushed, and then made no move to have the boy surrender his seat. The buxom woman, however, did not let him go, but held him with extreme frankness. The boy sat still. At N street the mother rang the bell. As the car stopped she put her arms around the boy and lifted him to the door. "Won't you take this seat?" said she to the young woman. "I just took his home." And as she got off, the boy followed her.

As the car rolled on the buxom woman looked warmer than the weather. "Won't you take this seat?"—Washington Post.

Dirt For the Dirty Ones.

"In several of the provincial towns," writes Mr. R. H. Randome, "one finds dirt to be sold in boxes, foreign and certain Japanese hotels have a foreign side. The European accommodation in such places is, as a rule, terrible. The dirt which is sold is richly colored, the bedsheets are apparently soiled, washed and the tables and chairs are seldom capable of standing on more than two legs at a time.

"When I first went to Japan I could not understand how, on the foreign side of the Japanese hotels, the dirt was kept so clean. The dirt which was used in the rooms was kept scrupulously clean. One would naturally think that a people whose houses were so dirty would revolt at having a portion of their premises in a filth condition.

"But, as explained to me by the landlady of one of the foreign hotels, dirt is foreign and dirt is dirty. They go about their houses in their boats, and consequently they cannot wish to have their rooms kept in proper condition."—Liberator.

The Barber Was All Right.

"After being shaved in a Chicago hotel shop, I walked out and down the street and entered another shop and took off a coat. The barber lathered and scraped me without a word, and I wanted to tell him that I had not been shaved twice already this morning."

"Yes, Sir, he replied.

"Are you going to shave me again?"

"No, Sir. I supposed you came in here to get the skin taken off and part with some of your cheek!"—Pittsburgh Dispatch.

Vaccinated the Bites.

Orders that were issued by the German West African officials that all firearms in the hands of natives should be stamped and registered aroused the anger of the natives. In Dar es Salaam, however, got along with no trouble. He had inoculated cattle for the rinderpest three years before, as far as Dar es Salaam saw, when he was called to the city. He therefore recommended that he was ready to vaccinate their rifles so as to insure their shooting straight and doing no hurt to their owners and the Damasas provided to him to get their guns stamped.

Horse Share.

Judge—Was the stolen article gold or gilt?

Prisoner—It was silver, sir. The guilt was all my own, ye annex—Jeweler Weekly.

Canada has a forest area estimated at 125,000 square miles, or \$900,000,000 worth of timber. The forests of Canada are considered to be among the best in the world and command a price of \$55,000,000 annually.

When a wise prophet predicts the end of the world, he invariably puts it far in the future, so that no one he knows will live to contradict him.—Chicago Tribune.

Spoke in Hancock.

Hon. P. E. Neal, a prominent politician, of Hartford, was in town Friday. He spoke to a large crowd in the interest of the Republican party.

Elder Finlayson.

Rev. Gant, of Elizabethtown, Evangelist of the Christian Church in Southern Kentucky, was a visitor to the city last week. He is the editor of "The Southern Kentucky Missionary," an organ of the Christian church which is published at Hopkinsville.

A Mad Heart.

An English paper says that the hat of a girl in Scotland dropped off one day, and as he stared in pursuit a black hen dashed out of the gateway and flew after it. The schoolmaster saw the bird and thought it was his hat, and so picked it up and said, "What a nice hat you have." The girl was mortified, and now she has dropped the "hat." It's just plain "Ma," that's what

DOES YOUR BOY NEED BRITANNICA?

A well-known superintendent of schools has given it as his opinion that pupils who have access to the Encyclopedia Britannica stand 33% cent higher in their studies than those that do not enjoy this privilege.

YOUTH....

is the promotional period. What a boy needs in his youth becomes a part of his very character. To give your boy a chance means that you will see to it that he has the best surroundings, and your encouragement.

"The Concentrated Essence of the Whole World's Wisdom"

Is what the Encyclopedia Britannica has been termed. Let your boy read the interesting pages and he will look with disdain upon "dime" literature. Your boy has large ideas. Give him material out of which he can construct far-reaching ideas. Give him material out of which he may not aspire.

ONE DOLLAR TO-DAY.

and put the Britannica into your home where your boy, as well as your girl, your wife and yourself, can consult it continually, and when he attains manhood, there will be no place in literature or professional life to which he may not aspire.

DELAY....

Will prove expensive. Call at our store at once, or cut out this coupon and mail it to us.

Please acquaint me with the details of your Britannica offer.

CURRENT TOPICS.

BY MRS. MATTIE GRINNELL.

Careless, slovenly speech is as bad as slovenly dress and impolite conduct is as bad as slovenly speech. Spills are cut off, cut out and the sound of honest, necessary letters utterly ignored. I know it is a hard task to keep drilling, drilling, but how on earth are we to be judged except by our conversation? Surely not by handsome apparel. Certainly not by personal appearance. All we can hope for is that our slovenly and ungrammatical. God speed the Kentuckian Club women in their good work!

i-i

Dame Fashion has again decreed that short dresses are "de riguer" for street or ordinary visiting occasions. Common sense should always decree that trains are only fit for dancing-rooms and carriages. It is sad to see ladies dancing and court trains carried on the air until an official takes it from the lady's arm and spreads it out behind her. I never could see why trials made such dresses intended for brilliant occasions and I never could see why trials made such dresses should be deemed for ordinary parades.

i-i

If a man admires him he hasn't bathed his body in seventeen years he is too closely allied to the quadruped tribe for the rules of hygiene ever to have impressed him. His home training was certainly homopathic as regards abstinence.

i-i

Jug Jefferson will be in Louisville some time during the theatrical season, the date not made, Fashman, the greatest pianist living will be heard there this fall or winter. G. H. Casper gives excursion rates always, I believe, for a company of ten.

i-i

Impresario Maurice Green sends word that the patrons of the open festival can look forward to the greatest musical treat Louisville has had in years or has ever had as will bring to our city all the famous stars of his organization. The Theodore Thomas orchestra of Chicago of seventy pieces will exceed the Boston Symphony. The last spring and summer Gonnold's ever popular operetta "Merry" will be given Tuesday evening with Mme. Calve as Marguerite. I saw that magnificient production in the winter of '65, but this is a finer cast even than the Italian opera troupe I enjoyed. Rosenthal's brilliant and sparkling "Barber of Seville" will be given Saturday evening in the principal roles announced for Wednesday evening. Manager Camp is due a vote of thanks from every music lover in Kentucky for the scale of prices. All seats for such famous organizations are five dollars. Mr. Lewellyn Smith, of Smith & Nixon, writes that the most excellent seats can be gotten for two dollars. Any seat is good for grand opera. Good seats for \$1.50.

i-i

Joanna Baillie whose birth occurred nearly a hundred and forty years ago was the first woman poet writing in the English language who produced poetry considerable in amount and considerable in merit. Mrs. Hemans thirty years later made a second claim to the title and nature of woman, but it is to Mrs. Browning we owe much for the new era, and from her time the woman poets and woman writers began to influence literature and thought. In reading Mrs. Browning's biography I find she had a beautiful message to declare and declared it beautifully.

i-i

"The Man with the Hoe" has aroused wide attention. Prof. Edwin Markham's name is not unfamiliar to us who see "Scraper's Magazine" or "The Century," but never before has he aroused such enthusiasm. The poem is an interpretation of Millie's famous painting known by that name now in California. The poem is powerful, strong, most interesting, and most striking poem, with the single exception perhaps of Kipling's "Recessional," that has been written in any country in the last quarter of a century. I have the poem but fail to see as much in it as others. I do not admit the "Recessional" as much as many others do.

i-i

Bismarck's maxim was a good one to adopt—Never launch forth a policy you cannot carry through." I expect Germany and France have thought this in the affairs of the South African Republic. The British are the only foreigners in the Transvaal really desirous of British rule so there is much speculation as to what they will do. President Kruger will have to play his cards right well to even hope to come out. England's motto is, "We may and should take whatever we are strong enough to obtain," and generally succeeds. Moral impedimenta never count, you know.

i-i

Nebula's comparatively new unemployment law shows that state legislation in dealing with labor problems does not always succeed. The law aims to regulate the employment of women and was sweeping in its provisions. It regulated and limited the hours of employment and required employers to provide seats for those to occupy during working hours or else heavy penalties were provided for infraction of the law. It was a noble idea, but we see where the hands of habeas corpus have been cut off. Proprietors of all kinds of establishments cannot comply with the law and have employed men. "Better not meddle" is fine motto.

i-i

President Kruger detests men and law, so he does. He has an indefinable power. I have never thought of that. I will not say more about him.

upon it as I rarely ever use pen and ink.

The Elk Carnival had two successful weeks. About 250,000 people passed through the gates. As many dollars no doubt were dropped in the city. The Elk Club has done a great deal of work and demonstrated the progressive spirit of the Louisville Lodge of Elks. This is a forerunner of many to follow. "Kentucky Day" was a grand success.

i-i

The Emerald Queen yacht Shamrock, will go home to Glasgow. Sir Thomas Lipton says "our" Columbia is a wonderfully treated by his competitor, who, it is said, are a set of scoundrels and scoundrels. It is said he has a few set of men and true sportsmen." Yes, sir, we are Americans and wherever we plant the American flag, it is to help, uplift and improve.

i-i

A boor! Glory! Not any, thank you—A Spanish gentleman is a jaw-breaker.

i-i

All the early physiological school held that alcohol was a food. Modern physiologists agree that it has no food value at all, but is a pure stimulant.

No long since, however, Prof. Atwater, of Wesleyan University, showed by experiments that alcohol was a poison.

Some of the qualities of food, would say it yields energy for a little while but certainly it does not furnish.

Read a paper, I remember reading it last June, in Connecticut at some Scientific Association, in which he gave an account of his experiments. His object was to determine the nutritive value of alcohol. Pure alcohol was administered with water or coffee, then in the form of brandy, whisky, wine, or beer. It was proved that alcohol was oxidized as completely as bread, meat or other forms of food. Again, I would venture to suggest that, like starch, or sugar, it is a food, but yields energy. Alcohol is a food to the system.

Prof. Atwater was only endeavoring to reach facts. He did not advocate the use of alcohol, but proved that it was not the poison some have considered it. We who studied chemistry in long years past, were told all about the effects this poison had in the stomach and we would prefer a non-alcoholic diet to a general diet. The use of tobacco leads generally to overindulgence in alcoholic drinks. This is depicted by modern medical men but we always associate the two drugs. An excessive use of the weed is as horrible as imbibing alcoholic liquors.

An excessive use begins at his room with a fractured bone, caused by a kick with an ax.

We are quite glad to welcome Bro. Waggoner and Bro. Daviss as our pastors for another year.

Quarterly meetings will be held at the M. E. church the 30th of November, and the 1st of December.

Mr. T. B. Hall and daughter, Miss Lillie, in December come for a few days to speak at the Tabernacle.

The Misses Jolly and Miss Clara Miller were the guests of Lillie and Lizzie Hall, Saturday, and attended the literary.

Mr. Ed Miller and sister, of Mattingly, were the guests of their cousins, Misses Franklin and Mary Jolly, Saturday and Sunday.

Misses Mattie and Fannie Glasscock, of Antioch, were the pleasant visitors at Miss Flora Butler's home Saturday and Sunday.

Miss Carrie Hayes was at home Saturday and Sunday, and attended the teachers' association.

She was accompanied by Mr. T. J. Glasscock.

The angel of death visited the home of Mr. Bill Henninger and claimed his victim. By his death the community loses a good, honest, upright citizen. He leaves a host of friends and relatives to mourn his loss. We extend sympathy to the bereaved ones.

If you are unable to rest at night because of the "cough" or "Taste-Homes" give up smoking and smoking. It cures a cough and cures a cold quicker than any other known remedy. It heals the throat, chest and lungs, cures a grippe permanently; does not stampede or harmlessly. Children love it and people like it. Druggists sell it.

A new name in fiction is Francis Wharton, whose short story, "Out of the Deep," appears in the November, "New Lippincott." This story, and two in other editorial hands, are all that are needed for a permanent weekly will stop noted hereafter for singular position and dramatic execution. This is the new of blood, and it behoves us to stop and listen to such voices.

Keep it in Your Home.

And when the bawls fail to act properly,

take a dose of Lyre's LAXATIVE SYRUP—it acts quickly but effectively on the kidneys, liver and bowels; will keep your system in good working order and make your complexion clear.

An English police inspector being informed that a hotel keeper was serving game out of season, visited the restaurant in plain clothes and ordered dinner.

He was served his meal and then dined with the waiter. The waiter played the fastest game and they made few "fumbles." I don't like the game but I am right fond of old Louisville.

i-i

Rah for the Louisville High School football team. A good game on the local gridiron. The Hoosiers gave them a fast, hard game and many fine individual plays. The Louisville boys played the fastest game and they made few "fumbles." I don't like the game but I am right fond of old Louisville.

i-i

Dr. Bull's COUGH SYRUP is still in use. The old fashioned way to this old reliable medicine, and the old doctor's way to the best remedy for a deep-seated cough or cold, will effect a cure in one day.

i-i

Farm Journal for the balance of 1890 and all of 1900, 1901, 1902 and 1903, nearly five years, to every subscriber who will pay one year in advance for the BRECKENRIDGE NEWS. No better farm paper than the Farm Journal. This offer is made only to a limited number of the first who come forward.

i-i

Extravagance in Speech.

"Feeble" and "twitfully" are two of

the hardest words and the worst used words in the English language.

They are applied hundreds of times every day to things that are far from perfect,

and yet no one feels any pain when

such wanton depredations are committed.

The Farm Journal is an old established paper, enjoying great popularity, the best and most useful

farm paper published.

i-i

This offer should be accepted without delay.

i-i

President Kruger detests men and law, so he does. He has an indefinable power.

I have never thought of that. I will not say more about him.

i-i

Carleson, slovenly speech is as bad as

slovenly dress and impolite conduct is

as bad as slovenly speech. Spills are

cut off, cut out and the sound of

honest, necessary letters utterly ignored.

I know it is a hard task to keep drilling,

drilling, but how on earth are we to be

judged except by our conversation?

Surely not by handsome apparel.

Certainly not by personal appearance.

All we can hope for is that our

Kentucky Club women in their good work!

HOME CURE FOR BLOOD POISON.

Beware of the Doctors' Patchwork; You Can Cure Yourself at Home.

There is not the slightest doubt that the doctors do more harm than good in treating Contagious Blood Poison; many victims of this loathsome disease would be much better off if they would be allowed to remain at home and recover. The mouth and throat and delicate parts into which the poison has entered are to be dosed on mercury and potash, the only remedies which the doctors ever give for this vile poison, and only attempt to hide up the outward appearance of the disease—the sores and eruptions. This they do by giving the poison, as they call it, in large doses of mercury and mercury. The mouth and throat and other delicate parts into which the poison has entered are to be dosed on mercury and potash, the only remedies which the doctors ever give for this vile poison, and only attempt to hide up the outward appearance of the disease—the sores and eruptions. This they do by giving the poison, as they call it, in large doses of mercury and mercury. SPELLING

Should Be Given More Prominence In All the Schools of Today.

FUNDAMENTAL PRINCIPLE OF EDUCATION.

(By Mrs. Rachel B. Lay.)

As Mr. Babage kindly offered a column in his valuable paper for the interchange of the ideas of teachers, and presuming they have not as yet, had the time to give being engaged in the teaching, I take it for granted that I, as an experienced teacher, am of some of this, and can give an idea, or opinion whatever you choose to call it.

In visiting the various schools in my reach, (while I very much appreciate and approve of many of the new methods of teaching that have come into use since my days of pedagogy,) I notice a very decided lack of spelling, which in most every instance, both in intermediate and advanced classes, a greater deficiency in that branch than in any other. Although I think writing is also too much overlooked, I think good spelling should be much preferred to good writing, as the former may be a deficiency in one, or the other, which is not necessary at all. A young lady or gentleman seeking a business position would stand a poor chance indeed, if when requested to draw up an article of any kind, would present it with half the words misspelled.

The "spelling book" is now known as the "scarecrows of the school," and for the best thing on milk that can be found anywhere."

"Yes, we dear sir, I believe I am far from being the best thing on milk that can be found anywhere."

"What is it, doctor?" eagerly asked the audience.

"Cram," ejaculated the preacher as he hurried round the corner.—San Francisco News Letter.

NOT THE ADVICE EXPECTED.

After spending more than a quarter of a century in active school life in the city a certain merchant purchased a ranch which he considers to be admirably adapted for dairy farming.

He has a large farm, and is engaged in agricultural pursuits, he is dependent for his knowledge of the art upon those books which purport to tell the user how to do the trick. He desires to have a schoolroom where he can go and for advice before himself to his friend and pastor, Rev. Dr. Stebbins, in whose omniscience and wide reading he has implicit confidence.

"Do you know anything good on man, doctor?" said the venerable man of God.

The aged pulpit master knew more of the "shears cuts of the sheath" than of any other laicled fluid, answered solemnly:

"Yes, my dear sir, I believe I am far from being the best thing on milk that can be found anywhere."

"What is it, doctor?" eagerly asked the audience.

"Cram," ejaculated the preacher as he hurried round the corner.—San Francisco News Letter.

AN INTERESTING EXPERIMENT.

That the earth revolves on its axis can be proved by a simple experiment. Put a candle stick in a hole in the floor of water and place it upon the floor of a room that is not exposed to jarring from the street. Upon the surface of the water, sprinkle a coating of creosote, and draw a straight black line two inches long upon the coating. The line should be north and south.

After a few moments the candle will move so that it will exactly coincide with the charcoal line. Any stationary object in the room will answer as well, provided it is parallel with the charcoal line.

This proves that the earth is revolving, has carried the water with it, but the powder on the surface has been left a little behind.

TO EXTRACT A SPINNER.

The spinner will extract a spinner deep in the bosom of the earth by means of steam. A rather wide mouthed bottle is filled two-thirds full of boiling water, and the injured spot is placed over the mouth of the bottle. An suction draws the steam down, and a little additional pressure is used to assist the exit of the intruder. In a few moments the steam extracts the spinner, and the indigestion rapidly subsides.

GLOVE SLEIVES.

Glove siver was the strange name given to a custom which prevailed in India, where fine silks were woven, namely, the granting of a certain sum of money to servants to buy gloves on Lammas day, or, as it is called now, a little before the autumnal equinox.

This proves that the earth in revolving has carried the water with it, but the powder on the surface has been left a little behind.

KENTUCKY KNIGHTS.

The Grand Lodge of Kentucky Knights of Pythias held a special session in Henderson last week and adjourned to hold their next meeting at Winchester, October 1000.

DR. BULL'S COUGH SYRUP.

Dr. Bull's Cough Syrup will cure colds and intercurrent without fail. For grippe influenza, and a deep-seated cough or cold, it is the best remedy offered to the public. The doses are small and a bottle costs only 25cts.

CO-OPERATION.

State and County Working Together For the Farm-er This Fall.

GOOD ROADS AN OBJECT.

Hon. Lucas Moore, commissioner of agriculture, is pushing the preparations for the farmers' institutes to be held during the months of November and December. The date will be determined when the two men were opposite, and when Gladstone gave in a forcible way his ideas that Homer was no longer needed. But he did not give up entirely, and out, "Mr. Gladstone, I don't believe a word of it." Then he rose to argue the matter and said one sentence, but got no further. He had not given Gladstone a chance to speak, and seen his eyes wide open, turned to their fullness in a steady glare, and his tongue stumbled and he sank back into his chair in confusion. The writer con-

tinued.

"Go to the sea for it. Take your umbrella. Make your way to the place where the eagles, vultures, falcons and such like birds of prey are gathered.

Select a bird. Stare at him with insult, and you will see the older birds expand as Mr. Gladstone did. The film vertex lies through which he looks at the sun and opens to paralyze his prey will part, and then you will see what Gladstone said and understand what Blackie said and understand his feelings.

We have taken much pains this year in the selection of our stock and have purchased the most desirable patterns that were upon the market. The values we are offering are simply amazing. In clothing we are selling suitings from \$3 to \$12. Pants from 50 cents and upwards. Overcoats from \$2.50 to \$10.00.

WE'VE GOT 'EM NOW!

OUR FALL STOCK OF CLOTHING is on display.

ALL NEW DESIGNS for Men, Boys, and Children.

We have taken much pains this year in the selection of our stock and have purchased the most desirable patterns that were upon the market. The values we are offering are simply amazing. In clothing we are selling suitings from \$3 to \$12. Pants from 50 cents and upwards. Overcoats from \$2.50 to \$10.00.

GENTS' FURNISHINGS

OUR STOCK OF SHIRTS range from 50 cents to \$1.25.

Everyone who has seen them speaks of them in the highest praise.

UNDERWEAR This department is overflowing with good things. Winter will soon be upon you and it will be necessary to look around for underwear

WE are the people who are preparing to meet your demands.

JOLLY & CAIN,
IRVINGTON, KY.

BREAD

WINNERS.

Let Men be the Makers of Laws and Women the Makers of Homes.

SEEK GOODNESS, NOT GREATNESS

Up to the period of the civil war no women were employed in any of the departments of government. The fact is not great that this glorious country grew and prospered from the days of 1776 to that time without woman's service in governmental affairs.

It was in 1862, when the civil war was at its height, and every able bodied man was needed in the front of battle, that General George B. McClellan, then General Francis E. Spinner succeeded in opening the government departments to the employment of women. From that time women have gradually come into public service by being appointed by the president or some of his subordinates, until it is said that there are now over 5,000 in public service in the executive departments in Washington city.

The post office department employs a great army of women. There are said to be about 50,000 to whom the cash of office has been distributed qualifying them for their respective positions. They all apportion posts of public service among those of letter carriers, railway mail clerks and inspectors. The same salaries are paid to them as to men, for the same kind of work, ranging from \$20 to \$1,000 per annum.

It is to the credit of our people that our government is the only business concern in the world that places women on the same plane with men in the matter of pay for work. It is easy to drift with the current and believe that many women in public service is a good reason for doing it, and we believe this is not true, to compare our grand republic to the situation into which our grand old republic is drifting. But when we awake to consider that 80,000 women in public service means 80,000 men out of employment, or at least out of their respective places, we will be ready to realize that there is something very wrong with our country.

Worthy and intelligent young men wander from place to place, and from city to city, seeking employment that they may be able to enjoy a home of their own, that they may establish an "Earthly Canaan," an "Eden of love and happiness." These idle,浪費的生活 places in public service are being filled by those who should be home builders, educators, mothers and matrons. In these respective capacities, woman is superior to man. Intellectually, woman is man's equal, physically she is his inferior. Men and women should strive to fill their respective capacities in life, and women should be encouraged in all womanly pursuits. It is truly said, "The hand that rocks the cradle rules the world."

"Nor think I pride you, when thus I show, What you might nigh fear to know, Back to be good, but sin not to be great; A woman's noblest station, is retreat, Her fairest virtue by from public right, Domestic worth that shuns too great a light."

To weight man's animal task, resign, If he is born to it, or to command; To labor for a poor, corrupt state, Or dare the rage of easy and be great."

Doris.

Lest.

Many have lost their limbs and hope as well as health, because they have been told that Ktayte disease was incurable.

Foley's Kidney Cure is a guaranteed remedy for the disengaged and dislocated.—A. R. Fisher, Cloverport.

Dave is Talking Through His Hat.
The Courier Journal gives in yesterday's paper the following interview with Col. D. R. Murray.

"Col. David R. Murray, of Cloverport, was in the city last night on business, and when asked in regard to the situation in Breckinridge county said that everything pointed to Democratic victory. He had in his pocket a letter from the Executive of the Committee on Campaign Committee, stating that Albert Barry, candidate for Representative from that district, would be elected by a safe majority.

Col. Murray said also that the Democrats were confident of carrying Breckinridge, and were relying on the fact that it gave Bailey \$60 million. Col. Murray says that he feels confident the Democratic ticket will carry the county.

Church Dedicated.

The members of the Christian church at Stephensport are making preparation for the dedication of their new church, the First Southern.

In the building of this church the members have been assisted financially by Bro. Cowan, a rich cattle buyer from Montana, who was born near Stephensport and who feels a deep interest in the welfare of the place.

Campaign for Christ.

Rector's services conducted by the Southern District of Mission of the Christian church will begin in November at Stephensport. At their conclusion services of the same kind will be held at Cloverport, then at Hawesville and finally at Lewisport.

A Kindergarten Party.

The little schoolmarm of Miss Lucile LaNeve were entertained yesterday afternoon by two of their friends at the home of her mother, Mrs. Ella LaNeve. The children played happily all the afternoon and did full justice to the bountiful repast which was served them. Those present were little Misses Virginia and Leonora McGavock, Virginia Hudson, Elizabeth Skillman, Eloise Nolle and Master John Burke, Jr.

United in Marriage.

BALLOON, Ky., Oct. 31.—(Special) The marriage of Miss Frona Pate, daughter of Mr. W. N. Pate, to Mr. Peyton Scott of Harned, Thursday, Oct. 26, at the home of the bride, was the most talked about event in the community. An appointed hour the wedding march was played by Miss Cora Mattingly and the bride and groom entered the room preceded by Miss Mittie Pate and Mr. George Gray. The ceremony was performed by Rev. Lewis.

At 11 o'clock a bountiful feast was spread which was enjoyed by a host of friends and relatives. Friday Mr. and Mrs. Scott left for the home of the groom at Harned, where an elegant affair awaited them. Too much good cannot be said of the bride. She is cheerful and bright and loved by all who know her. The groom is a thrifty, prosperous farmer and business merchant. The entire community go with them to their beautiful home at Harned.

William Powell Arrested Saturday.

William Powell, who hails from the neighborhood of Glendale, was in the city Sunday and partook too largely of hotel fare. His conduct was so bad consequently was arrested. He was fined \$4 with all trimmings. He is an employee of the Dean Tie Co.

PUBLIC SPEAKING.

The Hon. D. K. Murray will speak in the interests of the Goebel ticket Saturday, November 4th at Union Star at 1 p.m. and at Stephensport the same day at 7:30 p.m.

BEWLEYVILLE.

Moses Willlett arrived in our town Sunday afternoon.

Miss Blanche Jolly continues to visit friends in Louisville.

Dr. J. M. Walker was called to see a lady at Garrettsville, Friday.

Mr. and Mrs. Geo. Neff, of Guston, have a nice lady clerk who smiles and teases you well.

Mrs. Monica Hunter, our primary teacher, left her home at Glendale Friday night, returning Sunday.

Mr. and Mrs. Chas. Drury went over to Brandenburg Friday afternoon to visit relatives and attend the speaking.

We have great occasion to be glad that our own people are in so good a state of health, while so many in adjoining neighborhoods have cases of severe fever. We are almost entirely free from sickness.

Let all the good voters do a wise thing for Kentucky and put Mr. Taylor in for our next Governor. The man, of whom not a single evil thing can be said is sure to be the right man.

Rev. D. C. Campbell, our new presiding elder, passing through our town on his way to conduct a quarterly meeting at Union Star, stopped a day or two to visit his wife's relatives.

Our Women's Missionary society recently held an interesting, and profitable meeting, conducted by Mrs. O. H. Drury. We have decided that the question as to the future state of the heathen is not fully determined in the Bible.

The Sunday School Convention at Guston, Wednesday, was a very pleasant affair. The number of children was in attendance, exceeding the number, and Adam, the present Presbyterian preacher, who is very much liked by his people. These little gatherings point in the right way, and are nice for us people in many ways.

The three-year-old daughter of Mr. and Mrs. Joseph Mattingly, died Sunday evening after an illness of five days.

Another spell of winter is upon us.

STEPHENSPORT.

Frank C. Ferry is spending a few days with his family.

Mr. Chas. Waddington was in Cannelton, Ind., for a day last week.

Mr. and Mrs. Charles Bert and daughter, Alice, have returned from Louisville.

Miss Katie, spent several days last week with Bridget Flood.

Mr. and Mrs. K. B. Blain will soon

move to the country, so we will lose another good citizen.

Mrs. Charlotte Hiner is having built a nice new barn and stable which is quite an improvement to her place.

James Irvin with his little son, Paul, and his sister Miss Irvin of Elizabethtown, have been spending several days here.

We hear from Mr. and Mrs. R. W. Vaughan that they are very much delighted with their home in Lexington, and are having much success in their business.

Items are very scarce at present writing, as the comers and goers have all settled down and are preparing for the coming winter season after attending all the Carnival, street fair, reunions, etc. of our near cities.

The little widow of Mr. and Mrs. W. M. Linton, who has been ill for quite a while, died Tuesday the 24th, and the following day was taken to Cannelton, Ind., for interment. They were accompanied by friends from here.

They wish to express their thanks to friends for kind attention shown during their illness.

The Fortnightly Club.

Taylorsville, Ky., Oct. 30. (Special)—The Fortnightly Club of Taylorsville met with Mrs. Wrathe Oct. 24th, to arrange for a dance to be given this year. Thanks are due Mrs. Wrathe from the club for her generous hospitality.

The next meeting will be held in the college chapel Saturday, Nov. 1st. A large attendance is necessary and is earnestly asked. The following program will be followed out:

Responses to 10th call—Wise & Know

about Roads.
Fare by Mr. Robert McMillian
The American of Russia and his family.

Fare by Miss Greenwood—English

troubles in Africa.

Dinner by club.

Twice a year the "Capitol" overflows and strands millions of the unfortunate to feed the whole of central Asia. If a

vantage could be taken of these im-

mense resources given by nature.

A number of other topics of interest were used by the Clubmen as early as

November 1st.

Freight Caught.

Kansas City, Oct. 30.—The sheep pens at the stockyards, covering an entire block, were destroyed by fire Oct. 26th, the sheep being cremated. Four hundred pens were similarly injured, half the walls of one of them, Charlie Peacock, may die. Loss \$40,000.

Big Hatch of Immigrants.

New York, Oct. 30.—Sunday was a very busy day at the horse office, more than 3,000 immigrants passing through the inspection. Over 1,000 immigrants are reported here during the present week.

Words of Appreciation.

Now that the warm weather seems to be at an end we are again at your service. This is the first you have had from us since entering our new quarters. In fact we have been so busy that we have not had time to tell publicly what we were doing or what we had to offer. But owing to the unreasonable weather we have, at last, caught up with our hauling and are ready to do business.

We are awful proud of our new store, but not stuck up, and everyone seems to join us and appreciate it as much as we do. Well, why shouldn't they? With all the modern improvements and 10,000 feet of floor space we are in a position to serve you much better than ever before, and that's what we are all looking for, the very best thing we can get for the money. While we have not added many new lines to our stock, we are enabled to carry a much greater variety and a nicer class of goods than we ever carried. Our big house is full to the top, occupying three floors, nearly twice the stock we used to carry, and new things coming in all the time. That's the beauty in trading with us. You always get what you want and don't have to take what you don't want.

LADIES DRESS SKIRTS

Ladies Dress Skirts in plaids, figured blacks, and in fact all colors are going very rapidly. One of the most popular is a kind under skirt, all in one color, solid and gay. Then we have the Flannel Skirt patterns as low as 25c in assorted colors. Our dress goods department is more complete than ever, comprising all the latest novelties and ranging in price from 12½¢ to \$1.00 per yard.

SHOES AND CLOTHING.

These are our strongest points. The stock is all brand new and we defy competition. Our line of \$10.00 suits and overcoats are the best in the country. We are sole agents for Queen Quality shoes, the famous \$3.00 shoe for women that you see advertised so much in all the magazines. In style and quality they are all that could be asked.

FURNITURE.

On Furniture we are full up. Yes we know that there has been a big advance on this as well as many other lines. But fortunately we are able to protect you against much higher prices by small dealers who haven't the room nor the means to load up on such goods. We have one room 15 x 30 taken up entirely with samples of Furniture. They represent an immense stock, bought for spot cash before much advance went on. A new departure in this line is an assortment of Iron Beds ranging in price from \$4.00 to \$11.00. They are becoming very popular and are certainly worthy of all that might be said of them. You had better see what we have before buying.

CARPETS.

We have also added a beautiful line of carpets, both Brussels and Ingrains, and in order to get established in these goods have put a very close price on them of 25c and 50c per yard. The quality is good and the patterns are lovely.

HARNESS AND SADDLERY.

In Harness, Saddlery, and Teamsters outfit we certainly are headquarters. This stock is more than double the one carried by the old firm. Everything from a dog collar to a \$30.00 set of harness.

Last but not least is our cash register. This little machine is a money saver to you. By hook or crook it refunds to the customer every 30 cent cash purchase from 5¢ to \$10.00. This is worth something. We have given away this month nearly \$100 in cash and expect to do the same thing next month. You might as well have it as some one else. It is here for you, but you can just be that you won't get it unless you come after it. You have got to have the goods, then why not buy them from us and stand a chance to get them free.

Now a word for the new firm. We need no introduction, we have served you in the past and we will do our best in the future, realizing at all times that nothing is too good for our patrons, this shall be headquarters for accommodations. Your interests will, at all times be protected. Our service is, and always will be the very best that money can procure. Our appreciation of your trade will be expressed in our efforts to please. Our motto shall be, to keep all the friends we have, and make as many new ones as possible. With best wishes for our mutual success,

We are your friends,

B. F. BEARD & CO.

Mammoth Clothing House of the County.

Hardinsburg,
